

		<h1>IMT Standen's Environmental Policy</h1>	
Issue Aug 2023 JF Gratton President		Revised June 2024 Kulbir Rakhara Quality Assurance Manager	Approved June 2024 JF Gratton President
			POLEMSS Rev.: B Page 1 of 1

At IMT Standen's Limited Partnership, we take the necessary measures to protect the environment, conserve energy and natural resources, and reduce pollution by applying appropriate management practices and technology.

We will comply with applicable environmental laws and regulations and other requirements to which we subscribe, in order to maintain our status as a responsible corporate citizen in all locations in which we operate, fostering environmental responsibility across our organization.

We actively work to reduce pollution by identifying potential environmental impacts and implementing effective controls. Through efficient resource utilization, waste reduction, recycling initiatives, and responsible disposal practices, we strive to minimize the generation of waste, emissions, and pollutants.

We will periodically review our environmental objectives, monitor and measure our progress, and take appropriate actions to address changing circumstances and to continually improve the performance of our environmental management system.

We will openly make this policy available to all persons working for or on behalf of IMT Standen's vendors, customers and the public.

Signed,

Standen's Management
