

		IMT Standen's Quality Policy	
Issue Aug 2023 JF Gratton President	Revised July 2026 Dominique de Souza Operational Excellence Manager	Approved July 2026 Denis Brisson Chief Transformation Officer	POLQMS
			Rev.: D
			Page1 of 1

IMT Standen's Limited Partnership is committed to delivering high-quality steel parts and to our customers while exceeding their expectations. We prioritize customer satisfaction by thoroughly understanding client requirements and providing reliable, performance-driven products.

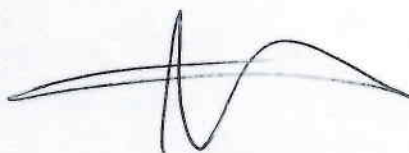

Our Commitment

- Quality Excellence** Quality is embedded in every aspect of our operations. Across all levels of the organization, we are dedicated to the continual improvement of our Quality Management System (QMS), regularly reviewing and refining our processes to ensure optimal performance.
- Compliance & Risk Management** We proactively comply with all applicable laws, regulations, and industry standards. Recognizing that global challenges, such as climate change, can influence our operations, supply chains, and customer expectations. We incorporate environmental considerations into our risk-based thinking to support product integrity, business continuity, and long-term resilience.
- Employee Empowerment** we empower our employees through development and training opportunities, equipping them with the necessary skills and knowledge to contribute to our quality objectives.
- Collaborative Culture** We foster a work environment built on shared responsibility, open communication, and continuous learning. This culture drives innovation and strengthens our ability to deliver consistent, high-quality outcomes.

Through our commitment to quality, compliance, sustainability, and employee engagement, we strive for operational excellence and sustained customer satisfaction.
